Dear Parent,

*Subject- 'Learning Olympiads' – Digital Citizenship & Cyber Wellness Olympiad (DCCWO) 2017-18.*

In recent years' digitization is no more confined to controlled laboratory but have started addressing real-world scenarios and situations. The rising interest in the digital world stems from the fact that all small and big tasks require digitization. Everyone is keen to invent and use new technologies. But everyone who uses technology – is he a good digital citizen? As a parent, you will agree with me that our children must be aware of rules of the digital world in the same way as the rules of the physical world. We should help our children be safe and responsible with technology.

The main objective of our school in accepting to participate in DCCWO is to inculcate interest in students about working safely and responsibly on the internet and creating a safe learning and sharing web environment for everyone. They must know how important and crucial it is to head responsibly towards automation and digitization.

The Olympiad is open Pan India under following four (4) categories:

1. BASIC: Students of Class III to V
2. ADVANCE: Students of Class VI to XII
3. EDUCATORS: Educators/Teachers of K-12
4. OTHERS: Parents and community members

'Learning Olympiads' is supported by NeGD, Digital India, Ministry of Electronics & Information technology and UNICEF. A registration fee of INR 300/- is being charged, which includes access to on-line learning material, free mock tests, certificate and all other communication. We look forward to your ward's participation.

For further details please log on to <https://www.learningolympiads.co.in/>

In case, students wish to participate through school, please send the registration amount to the Class Teacher latest by October 17, 2017.

Participation of the students is optional.

With regards

Principal
