(ए - 4 शीट का प्रयोग करें और एक फोल्डर में डाल कर जमा करें।)

Maths

Q.1 Use the grid given below to solve the questions-

13	28	26	34	16
88	22	12	15	99
54	46	33	67	29

- Find the pairs of numbers that add up to 100.
- Find all the even numbers and write their successors.
- Find all the odd numbers and write their predecessors.

Q.2 Write down the numbers (number plate) of any five vehicles that you can see around and mention their

- Number names
- Expanded form

Q.3 Learn and write tables from 2 to 8.

Q.4 Locate Andaman and Nicobar Islands on the map of India. Find the total distance to be travelled (by any means) and fare (for one person) to reach there from your place.

Q.5 Make a creative and innovative Abacus with the waste material available at home.

Q.6 Complete the Mental Maths Activity given on page number 40 in Super Maths book.

Note: Do all the above-given work in a separate colourful thin scrap file. You can also add some colours and pictures to it to make it more presentable.

Environmental Studies

1. Collect photographs of your family members. Make a family tree and paste photographs of your siblings, parents, grandparents, great grandparents on an A4 size sheet.

2. It is important to know the four major directions. If we know the directions, locating a place even in a new colony will become easy for us. Make a map of your colony on an A4 size sheet and mark your house on it.

3. Locate Andaman and Nicobar Islands on the map of India. Find out ways of reaching there. Make an itinerary for six days. Also, paste pictures of local food that you would like to eat. (Use two sheets which should be of A4 size)

4. Adopt a plant in your locality, and water it daily.

Computer Science

Q1. Make a collage of Input device, Output device, Processing Device and Storage Device using pictures on an A4 size sheet. (Also Label them properly)

Q2. Try any scenery in MS Paint during summer vacations with beautiful colours. Then, answer the following questions. (Take a printout of your MS Paint Drawing and write the answers of these questions at the back of it)

a) How many tools/options of MS Paint are used to draw this painting?

b) What are the names of all those tools/options?

Q3. Open Word 2016 and Type names of Hardware and Software devices. (Take a printout of word document)
