

MAHARAJA AGRASEN MODEL SCHOOL

CD-BLOCK, PITAMPURA, DELHI

Circular No. MAMS/2023-24/25

June 07, 2023

Dear parents and students

The school has received the following message from ATAL Innovation Mission.

We request the students take up online courses at <http://www.planetcode.in/>

Regards

Principal

MESSAGE FROM Atal Innovation Mission, NITI Aayog

Atal Innovation Mission, NITI Aayog has collaborated with Dell Technologies and Learning Links Foundation to bring to the students another unique learning opportunity in AY 2023-24.

Govt. of India has been promoting innovative solutions that integrate technology and entrepreneurship to solve complex societal challenges and boost the economy. Atal Innovation Mission is committed to empowering school children to innovate and apply technology not simply as a technical solution for an identified real-world problem but also for making their ideas entrepreneurial in terms of scale, sustainability, and user-centricity.

Atal Innovation Mission, NITI Aayog has partnered with **Dell Technologies** to curate learning material and self-learn projects for students on emerging technologies such as the *Internet of Things (IoT)*, *Artificial Intelligence (AI)*, *Embedded Systems*, *Augmented Reality/Virtual Reality*, and *App & Website Design & Development*. The learning material is available on Planetcode.in online platform, in the form of self-learning courses, and **Learning Links Foundation**, the not-for-profit organization implementing this intervention, would be supporting the students and teachers in making the best use of this content. These learning resources will help motivate the students to embrace technology better and also help them participate actively in the annual Tinkerpreneur boot camp and other contests organized by Atal Innovation Mission. The program will also offer unique and exclusive mentorship opportunities to girl students through hackathons and boot camps to improve their participation in Tinkerpreneur and other contests organized by AIM.

The Courses are currently live and hosted on the website- www.planetcode.in

The students can Sign up on the platform to access the online courses. Upon completion, students will receive a certificate in a form of a passport according to the respective level.

We look forward to your support to Learning Links Foundation, the not-for-profit organization responsible for implementing this program, when they reach out to you for conducting sessions for students on using the aforementioned content.

Regards,

AIM Team
